LEGO Robotics Summer Enrichment

Calling all incoming 6th graders and 7th graders!

Did you enjoy working with your LEGO EV3 in 5th grade? Well if you did, the fun is not over yet. KTEC will be offering incoming 6th and 7th graders a week long LEGO robotics summer enrichment course. This course will take the fundamentals of robotics that you learned as a 5th grader a step further. We will be exploring more with our LEGO Mindstorm EV3 kits and learning more about the missions we can complete on our First LEGO League competition board.

(Maximum 16 students per session)

Location: KTEC East

Time: 8:00 - 12:00

Session 1: Monday June 18th - Thursday, June 21st

Session 2: Monday June 25th - Thursday, June 28th

Cost: \$25

Permission slip deadline: June 1st, 2018
